Method

- Start by coating the rim of the glass, using the juicy part of a lime wedge. Dip the rim in a plate covered with salt by swirling the glass to cover only half of its outer edge. Shake off any excess salt and make sure there is no salt on the inside of your glass.
- Add all of your ingredients into the shaker, fill the shaker with plenty of ice and shake vigorously for about 10 seconds.□
- Double strain your Margarita using a tea strainer. This will keep the fast-melting fine shards of ice out of your glass.
- Garnish with a lime wedge and indulge in your delicious Margarita!□□□

Tip

High quality ingredients will make your Margarita stand out! Make sure you use freshly squeezed and strained lime juice, a good quality triple sec liqueur, and a bright 100% blue agave blanco tequila!□
